

High Cotton® Crapemyrtle

Lagerstroemia x 'Worthington's Upright' High Cotton®

A large growing crapemyrtle reaching mature heights of 40' plus with a width of approximately 25'. White blooms with a reddish stamen create a vaguely pink hue when flowers first open, turning to pure white as flowers mature. Branches remain upright when flowering. Spectacular reddish-brown exfoliating bark with unusually dark green foliage. Yellow fall color and a vase shaped habit. Mildew resistant. Zones 6-9.
